

Are you having trouble pulling poles?

Save time and money with the EZ-PULL. Unlike other Pole Pullers, the EZ-PULL Pole Puller has been co developed by EZ Spot UR and Bri-Tech in Australia to suit Australian poles, conditions and safety laws. Trialled and Tested in Australia the EZ-PULL will extract poles quicker than any other Pole Puller on the market and in turn save you money through productivity and safety.

EZ-PULL Features

- 39 Tonne pulling force @ 2250psi
- 900mm lifting ram stroke (more than twice any other puller on the market)
- 10 Tonne gripping force
- 50 Tonne rated Hook
- Very quick set up and operation (approximately 15mins to set up and extract pole)
- Remote control operation
- No OHS Issues (the most manual handling you have is connecting the hoses)
- Able to pull Concrete, Steel, Composite and Wooden Poles
- Neoprene inserts for steel, concrete and composite poles
- Pull poles without damaging for re use (with Sling)
- Pull poles above pole nails
- You control how much pressure is applied to the pole (good for rotten poles)
- Solar Panel for charging battery
- Remove concreated in, tapered butt or large sub transmission
- The use of a 50 tonne Sling enables you to extract poles you would otherwise cut off
- Can be used with a Skid Steer Loader
- Can be supplied as stand-alone unit up to a complete unit with a trailer, dunnage and accessories
